Ernst Alexanderson

Born in Uppsala, Sweden in 1878, Ernst Alexanderson became one of the pioneers of global radio communication and received more than 340 United States patents. His Alexanderson alternator made long-distance wireless transmission possible and became the heart of the Grimeton Radio Station, today recognized as a UNESCO World Heritage Site.

Ernst Alexanderson föddes 1878 i Uppsala och blev en av pionjärerna inom global radiokommunikation med över 340 amerikanska patent. Hans Alexanderson alternator möjliggjorde trådlös långdistanskommunikation och blev hjärtat i radiostationen i Grimeton, som idag är ett av UNESCO:s världsarv.
